**Foreword** This chapter needs a foreword. It is an *in extenso* reproduction of [Ourselin 2000]. In Ourselin et al. [2000], we did great work.

From the beginning of times, men and women have written theses using Lorem Ipsum and Foo Bar language.

This is a chapter with a very  
very very very very long title to  
explain my method

What a beautiful method

Spanning on several pages

My thesis showed I did very useful things and also pleases my supervisor [Ourselin 2000]. I also showed that I somewhat address the challenges laid out in Chapter 1.

Figure 3.1: A super caption.

Figure 3.1 shows our incredible results. We can also have interesting equations

$$\log_x(y) = DL_x(\text{Id}) \log_{\text{Id}}(x^{-1} \circ y) \quad (3.1)$$

$$\exp_x(\mathbf{u}) = x \circ \exp_{\text{Id}}(DL_x(\text{Id})^{-1}\mathbf{u}). \quad (3.2)$$

and reference them as (3.2).
